IMPORTANT NOTICE

WTRC moves to an 8 point heeling system effective July 1, 2010. Due to congestion problems with the #4, #5, & #6 Heelers, the WTRC feels this is an important and necessary change. NFR Heelers will become #8's, Top Circuit Heelers will become #7's or Heelers equivalent to Top Circuit Heelers. This will create room to move a #5 Heeler when needed to the #6 division. The number #11 Roping will be replaced with a #12 roping. This will give the higher number heelers two ropings they'll feel competitive in, at the same time making the #5 & #6 Heelers more competitive, in the #9 & #10 ropings. The plus system will still be in effect as always.

MORE DATES ARE PENDING
